###

The Virgin Islands Next Generation Network (viNGN) was established in 2010 as a public corporation; it is a wholly-owned subsidiary of the Virgin Islands Public Finance Authority. viNGN was funded primarily from an American Recovery and Reinvestment Act (ARRA) grant made by the National Telecommunications and Information Administration (NTIA) as part of a federal program to improve the broadband capacity in the United States, its territories, and the District of Columbia. The program is called the Broadband Technology Opportunities Program (BTOP). For more information regarding viNGN, call (340) 715-8581, or visit www.vingn.com.
